The FCC envisions an ongoing state role during the transition.

- •[S]tate oversight of the transition process is necessary to ensure that carriers comply with the transition timing and intrastate access charge reductions [...] Under our framework, rates for intrastate access traffic will remain in intrastate tariffs [...] [S]tate commissions should monitor compliance with our rate transition; review how carriers reduce rates to ensure consistency with the uniform framework; and guard against attempts to raise capped intercarrier compensation rates, as well as unanticipated types of gamesmanship [...] [S]tates could require carriers to provide additional information and/or refile intrastate access tariffs that do not follow the framework or rules adopted in this Order. Moreover, state commissions will continue to review and approve [ICAs] and associated reciprocal compensation rates to ensure that they are consistent with the new federal framework and transition. (FCC 11-161, ¶ 813, emphasis added)
- •[States] will continue to oversee the tariffing of intrastate rate reductions during the transition period as well as interconnection negotiations and arbitrations pursuant to sections 251 and 252, and will have responsibility for determining the network "edge" for purposes of bill-and-keep. (FCC 11-161, ¶ 790)

MA Tariffing Requirements

- M.G.L. c. 159, § § 13-14, 17, 19-20:
 - Every common carrier shall file with the department and shall plainly print [tariffs] showing all rates [...] for any service, of every kind rendered or furnished, or to be rendered or furnished, by it within the commonwealth, and all conditions and limitations, rules and regulations and forms of contracts or agreements in any manner affecting the same, in such places, within such time, and in such form and with such detail as the department may order [...] (§ 19, emphasis added)
 - "Just and reasonable" standard
 - Statutory 30-day filing period, unless Dept. permits shorter filing time
 - Authorizes Dept. to inquire into and investigate
- 220 C.M.R. § § 5.00 et seq.
 - Tariffs and schedules shall show plainly all requisite detail fully to explain the basis of all charges to be made and all rules and regulations governing the same (§ 5.02(3)(b))
- Dept. Practice and Requirements See, e.g.:
 - Notices to carriers
 - Tariff FAQ
 - Department Checklist for Filings

The MA Circumstance

- At least 60 companies have a switched access tariff on file with the Dept., including some placeholder tariffs.
- Dept. reforms, which preceded the FCC's actions, capped CLECs' composite, per-minute switched access rates, originating and terminating, at no higher than the ILEC's rates (Docket DTC 07-9)
- When Dept. staff receive access revisions, they compare against company's existing interstate and intrastate tariffs, as well as against the dominant ILEC's tariffs.
- Many carriers' interstate rates exceed their corresponding intrastate rates. Exceptions: some carriers with Host Remote Elements actually exceed interstate access rates.
- Not all interstate and intrastate access tariff rate structures correspond.

ICC Tariff and ICA Filings 2012 and 2013

ICC filings received:

- to reduce the Local Transport Facility element (2012 and 2013),
- to reduce intrastate composite rates with Host Remote Elements (2012 and 2013),
- Rural ILECs tied to NECA's tariff for their interstate rates which were lower than intrastate rates (2012 and 2013)
 - Note: All filed to reduce their rates
- to include VoIP-PSTN tariff provisions (2012)
- to increase intrastate rates to interstate levels (2012 and 2013)
 - Note: These were mostly withdrawn by the company or Dept. did not permit to go into effect.
- to match Verizon's new rates effective July 1, 2013
 - Note: Revisions to match Verizon's new rates currently pending
- to update rate structure (2012 and 2013) some carriers changed to composite rates; others broke out rate elements; others created composite "originating" and "terminating" rates
- do not yet address recip comp rates.
- 2012 Confidentiality Requests granted via Letter Orders. 2013 requests still pending.

Number of filings:

- 2012:
 - Appx. 44 ICC filings received in 2012 from CLECs, including appx. 27 rate reduction filings
 - Appx. 67 VoIP-PSTN tariff filings, including revisions, received from 42 carriers
 - Several ICA amendments between Verizon and CMRS providers establishing bill-and-keep for IntraMTA traffic
- **–** 2013:
 - Appx. 35 ICC tariff filings and counting
